Prashant Plastic Industries LLP

<http://www.ppillp.co.in/>

Since the foundation of our company, we are engaged in manufacturing and retailing Industrial Process Equipment like Tanks, Blower & Chimney . Apart from this, we offer after sales services for these products.

Profile

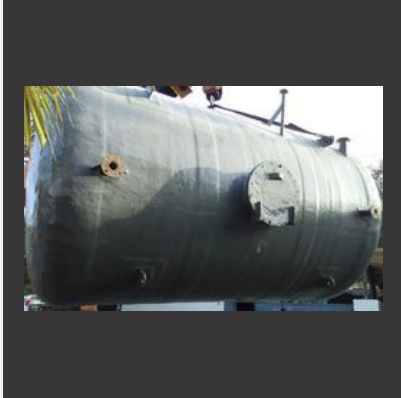

Since 1980 we have been known as '**Prashant Plastic Works**' and after 2010 we are known as '**Prashant Plastic Industries LLP**' serving the industry as a manufacturer, exporter and retailer of Industrial Process

Equipment. Manufactured using qualitative raw material, these equipment comply to the industrial norms and standards of quality. Due to the low maintenance, anti-corrosiveness, sturdiness and superior performance, our equipment find numerous applications in plants, soap manufacturers, agrochemicals, steel plants, pesticides, fertilizers, chemicals, oil and paper & pulp industries. Owing to the above mentioned attributes of the equipment. With the assistance of our highly qualified professionals, we offer after sales services for the products. In addition, the equipment can be customized as per the specifications given by customer. So many years of excellence enabled us to serve the some of the major markets across nation like **South East Asia, Indian Subcontinent, Middle East** and **East Asia**.

The raw material and other components required to fabricate the equipment are obtained from the reputed market vendors who have serving the industry for years. After sufficient market research, we manufacture the equipment so as to keep these abreast with the latest development and upgradation taking place in the market. Further, our quality auditors make sure that the finished products have zero defects before dispatching these to customers. Our sales & marketing staff makes sure that the products are safely and timely delivered to the clients' premises. Payment

Under the immense guidance of our mentor, "**Mr. Prashant Singh**", we have received huge appreciation from our esteemed customers. Moreover, with the help of his motivation and domain expertise, we achieve our business objective within the committed time span.
